

JARESI NUNEZ

SOFTWARE DEVELOPER

// BIO

Driven developer with a unique perspective that allows me to tackle problems from different angles to create smart solutions. My skills and background in programming make me an excellent candidate to any position that requires team work and creative problem solving. When I'm not working on projects you can find me playing Minecraft or buying more paints for mixed media art.

// EXTRAS

I have experience working on project teams focusing on various forms of engineering ranging from civil to robotics. I have participated in hackathon events.

// IN PROGRESS

I am currently learning more about utilizing machine learning and AI for creating elegant solutions to pain points we may not know we have.

// SOFT SKILLS

- > Professional Writing
- > Interpersonal Communication
- > Bilingual (English/Spanish)
- > Critical Thinking
- > Adaptation
- > Collaboration

SOFTWARE DEVELOPER

To whom it may concern,

My skills in programming, experience working in project teams, and background in computer science make me an excellent candidate for a role as a Software Engineer.

My experience working on project teams has exposed me to various forms of engineering ranging from civil to robotics. I have also participated in hackathon events, where I have honed my skills in creative problem-solving and collaboration.

In my current role as a Software Engineer L1 at Omega One Developers, I work as part of the Android development team in an Agile workflow. I participate in PR reviews, story pointing, sprint planning, and refinement. Additionally, I assist in the development team with debugging software and managing version control with Git. These experiences have prepared me to be a valuable asset to any team.

In addition to my technical skills, I also have experience in copy editing and professional writing, having worked as a Copy Editor at Pedriodico Progreso Hispano. This experience has helped me to hone my attention to detail, critical thinking, and communication skills.

My education background sets me apart as well, having graduated in the top 10% of my class at Achieve Early College High School and earned an Associate of Science Cum Laude at South Texas College in Computer Science in high school.

My educational background and experience both in the field and leading project teams have equipped me with the tools to excel in this field. I am eager to contribute my skills and experience to your team and look forward to the opportunity to discuss my qualifications further.

Sincerely,

Jaresi Maelin Nunez-Rios
